Will be in Reno for a few days, and will be pleased to meet all those who wish to avail themselves of this opportunity.

Give Them a Chance! That is to say, your lungs. Also all you breathing machinery. Very wonderful machinery it is. Not only the larger air-

machinery it is. Not only the larger airpessages, but the thou ands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Bosehee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon.

How People Do Business Where They Have Time To Bargain. This is the way they do business at the cross roads' store, where they have plenty of time for it. The system has not yet gone into effect in the large dry goods emporiums of the cities. Old lady in pink "slat" sunbonnet and a gown made of five and a quarter yards of calico, enters, adjusts her glasses and looks at the three pieces of gingham on the shelf.

"Anything I can show you to-day, Mrs. Skinner?" asked the proprietor coming forward with his mouth full of pickles

"I dunno," says Mrs. Skinner.

"Got a fine line o' ginghams just in."

"I dunno but I might look at 'em. No charge for that, I reckon?"

"Oh, ne, of course not. Now, here's a mighty fine piece o' green and red plaid."
"I dunno as I like plaid."
"Well, here's a blue and white check."

"I hadn't cal'lated on gittin' a check." "Well, now, here's a green and white

piece."
"I've so many green and white ging-hams, I thought I'd like something diffrent this time." "They're mighty good colors, Mrs. Skin-

"I ain't so sure o' that."

"Chaw a piece and see. No'm, that gingham'll bile like muslin. Don't you see it says 'fast colors' on the label?"

"Aw, that don't count fer nothin' now adays. How much is it ?" "Twenty-five cents a yard."

"'Taint wuth it, Sam." "It's wuth two bits."

"Deed it is." + ---"I kin git better gingham fer fifteen cents in town."
"Not much, you can't."

"I know I kin." "I'll give you sixteen cents for all you can git for twenty cents good as this." "I'll give you twenty-one cents if you'll throw in a card o' hooks and eyes."

"Can't do it." "Well, say a spool o' thread."

"I'm losin' money as it is."
"Law, Sam. I'll bet you make ten cents a yard on that gingham. You kin put in a card o' buttons, anyhow."

'I'll say six buttons." 'Why can't you make it a dozen ?"

"Oh, I'm losin' money now."
"How you talk!" 'Well, gimme a vard an' the six but-

SUPERFICIAL ACQUIREMENTS.

Some Practical Suggestions for Parents. The boy or girl who can give the name of every river and the height of every mountain in Asia, the age of every reigning sovereign in Europe, the date of every battle in America, can hardly be as well off for all this burdensome knowledge as one who knows the elements of human physiology and anatomy, who is taught more of the knowledge useful in after life, and can tell how to help himself or

another in case of accident or emergency. The boy who is to go into active life and the girl who is to become head of a house-hold, will have little occasion and less opportunity to use the greater part of the crammed' lessons so industriously ac-

cumulated during their school years.

A fair knowledge of the rules that are at the bottom of all healthful activity, a general acquaintance with anatomy and a well-grounded taste for natural sciences, will all grow into and become part of their daily lives, and such things are far less likely to make pretentious men or women than that kind of smattering "memorized" facts and dates and "words" which is too often the penalty of superfi-

CORRECTING AMERICAN HISTORY.

Establishing a New Date for the Battle of Trenton.

Mr. Andrew Quinton, of Trenton, New Jersey, asserts that the date on the Washington monument, Baltimore, fixing the battle of Trenton as having been fought on December 25, 1778 is incorrect. He on December 25, 1776, is incorrect. Ho says the battle took place on the day following, December 26. Mr. Quintin thinks the date should be changed on the monument so as to read "Battle of Trenton, December 26." Bancroft in his "History of the United States," Lossing in his "Field Book of the Revolution," Carrington in his "Battles of the American Revolution," Bryant in his "Popular History

ton in his "Battles of the American Revo-lution," Bryant in his "Popular History of the United States," and Raum in his "History of New Jersey," all agree that the battle of Trenton was fought on tho morning of December 26, 1776.

The American troops started to cross the Delaware on the evening of December 25, but it was 3 o'clock the next morning when they landed on the opposite shore. It was about 8 o'clock when the action be-gan.

EVERY NIGHT I SCRATCHED Until the Skin was Raw, Body Covered with seales like spots of mortar. Cured by the Cuticura Remedies.

Hemedies.

I am going to tell you of the extraordinary change your 'uticura Remedies performed on me. About the first of April hast I noticed some red pimples like coming out all over my body, but thought noticed some red pimples like coming out all over my body, but thought noticed some red pimples like coming out all over my body, but thought noticed of the mean of in layers, accompaned with liching. I would scratch every bight util I was raw, and then the next night the scales bing formed meanwhile were scratched off again. In vain did I consuit all the doctors in the country, but without aid. After giv.mg up all hopes of recovery, I happened to see an advertisement in the newspaper about your Culcura Remedies, and urchased them from my druggist and obtained almost immediate relief. I began to notice that the scaly cruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen montas before I began taxing the Culcura Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the Culcura Remedies to all in my vicinity, and I know of a great many who have taken them and thank me for the knowledge of them, especially mothers who have babes with scaly cruptions on their heads and bodies. I connot express in words the mands to you for what the Culcura Remedies have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and c car as a baby's.

THE rigid enforcement of the laws passed by Congress during the past this most desirable consummation about, is the one declaring "illegitimate all children born after a fixed date of polygamous parents," and fixtinuation of the practice of concubinfied the laws of the country with the greatest pertinacity, its male members undergoing the severest punishment rather than give up the practices If the reports are correct the walls of the citadel of the Latter Day Saints are falling, and the Mormons of Utah are once more turning their faces to the wilderness. The broad domain of them immunity and they are forced to take refuge in the sister Republic of Mexico. They are reported to have purchased large tracts of land in Chihuahua and thither plan to move their Lares and Penates. México is relcome to this addition to her popu-ation. The condition of affairs there can not be made any worse than it is at present, and the advent of the Mormons into that benighted land may be productive of some good.

Or all political fads of this or any day the Thurman bandana is the feeblest and the worst. Apart from its manifest absurdity in endeavoring to make the tail wag the head of the ticket, is its utter and hopeless inanity. It is after the log cabin of Harrison, and the rails of Lincoln, but it is a long ways after. Each of these drew their significance from lives of hardship and toil spent in reclaiming a wilderness and in masterly efforts to grow beyond the harsh and narrow environment of frontier existence. But the Democrats have in Thurman one of the oldest and best known of our public men. That they can find in his record and his life no better symbol or emblem than his bandkerchief would be pitiable were it not ludicrous. Mr. Thurman's adored red bandana is significant of but two things. The one that he knows the use of a pocket handkerchief, the other that the old gentleman has carried into this generation a custom of the last, and is a snuff trader. For which of these reasons do the Democrats raise on high his red wipe? The Republican party might with equal propriety, says an exchange, have made a rallying cry of Grant's cigar stumps, but it takes more than a pinch of snuff or a red bandana to rouse that party to shricking enthusiasm.

THE Republican National Convention is now in working order and the nominations were still being made at the hour of going to press. Thus far, the names of Hawley, Gresham, Harrison, Allison, and Alger have been nominated. The GAZETTE opines that when Ohio is called a stalwart son will ascend the platform and place in nomination the name of J. B. His reply was a happy one, and may yet land him in the Presidential chair. "No rebel flags will be surrendered while I am Governor!" may yet be read by be surrendered while I am Governor!" may yet be read by the masses on thousands of Republican banners. Were the Gazette in the prophetic line it would hazard the prediction that Forsker will, if the favorites are unable to reach the goal, be the "dark horse" who will win the industrious and amiable wife. A prize in a canter.

#### **Educational Convention Excursion**

SAN FRANCISCO, June 21.—During the past two weeks the local secretary from of the National Educational Association Convention, has been overwhelmed with inquiries from teachers of this State regarding the rate of trans-portation to be charged and the time limit of the tickets. Tickets are now on sale good for a continuous trip to this city to arrive on or before July 18th. Stop-over privileges will be granted on the return trip, limited to

#### PLATFORM AND RESOLUTIONS

The following platform and resolutions were adopted by the Re-publican State Convention, which convened at Winnemucca on the 15th instant:

The Republicans of the State of Nevada, in Convention assembled, again express their loyality to the principles of the Republican party, which have made this country so great and prosperous during the last quarter of a century.

RESOLVED, That the question of a sufficient upply of circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

can people.

That a diminishing quantity of money reduces the price of labor and property, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

reduces the price of labor and property, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to the national banks without interest, is subsersive of the rights of the people, oppressive, unjust and should be repudlated.

That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or coin certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

That the attempt to substitute national bank notes, costing the Government millions of dollars annually, for free silver, costing mothing, is an outrage upen the recople; that the money ring or trust, which has usured the sovereign power of the Government to issue money; and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for gove nment and law. We demand that the x ring or trust be destroyed, and equal rights be restored to all the people.

We charge that President Cleveland is the willing tool or agent of a powerful money ring, which fattens on the substidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by t xation and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches usurers, while it depresses the price of labor and property.

That we favor the nomination of no man for President who is personally interested in national banks or the bonded indebtedne

which he, either as agent or head, is most active in defending.

III.

We charge President Cleveland with vielating every promise he made in favor of civil service reform, with crippling the mail service, with refusing to aign necessary bills for the improvement of rivers and harbors, with using the power of his administration to prevent appropriations for navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations as the expense of the citizens of the nited States, and with joining the foreign bondhaiders to demonstize aliver and destroy the industries of his own country, and for the reduction of the wages of the Mint employees at Carson, for closing the Carson Mint when it was not only self-austaining but a source of revenue to the Government, for his contemptuous vetoes of bills for the relief of disabled soliders and sallors, and for failing to construct the Government building at Carson as required by law.

We are in favor of the absolute explusion.

IV.

We demand in behalf of our various in-dustries the retention of the duties on lead, borax, soda, hides and leather, and to re-store the tariff of 1-67 on wool.

A Panie Averted. Last evening, when the fire bell rang out its dread alarm, McKissick's Opera House was crowded with people who had assembled to witness the closing exercises of Bellak)—Misses Daggett and Mathe pupils of the School for Girls.
At the first sound of the beil fully one hundred people sprang to their feet, and for a moment a panic seemed immirent. Colonel Lindsay, who was present, instantly took in the situation, and with rare presence of mind, cried out in a stentorian voice: "Keep your seats; there is no danger!" This he repeated several times until order was restored. The interrupted enter-tainment then proceeded successfully to a close.

The summer season at Rubicon Springs, the well-known and favorite invalids' retreat and family has commenced, and already quite a number of guests are taking advantage of its healthful and invigorating waters. The Gazette was in error yesterday in stating that Miles Finlen would be, by order of Justice Leonand, admitted to bail in the sum of \$15,000, as the following from the Virginia Chronicle will show: "Hon. W. E. F. Deal requests the Chronicle to state that the dispatch published in a morning contempor-ary that Justice Leonard has de-cided to admit Miles Finlen to bail with bonds fixed at \$15,000, is incorrect. A dispatch from the Su-prems Court Clerk, sent from Car-son at 10 o'clock to-day, says that no decision had yet been rendered in the Finlen habeas corpus case."

#### Normal Class Needed

The Board of School Trustees is in receipt of a communication from President Leroy D. Brown of the State University asking its co-operation is the establishment of a normal class in conjunction with the University at the commencement of the fall term. The proposition was favorably received by the Frustees and a committee was appointed to confer with the Board of Regents of the State University in elation to this all-important and necessary matter.

#### A Searcity of Dictionaries.

At Bishop Whitaker's School for Girls Tuesday an old-time spelling-bee took place, the winner of which to receive a Webster Unabridged Dictinary. An order for the prize was sent some time ago to Sau Francisco, but the publishing house there returned word that there was not a volume to be found in the city. Consequently an order has been forwarded to Chicago for the desired volume, and upon its receipt will be forwarded to the champion speller.

A Fatal Result. William Drysdale, the Comstock niner who was so frightfully rushed in the accident in the Conolidated Virginia shaft on Satur-lay, died yesterday morning. De-eased was a native of Dumferline, Fifeshire, Scotland, aged 50 years, and leaves a wife and six children.

It was certainly a most cheering Archie Farrington, manager of sight to witness the generous out-the Reno Reduction Works, has repouring of people that filled the Opera House on this occasion, and Miss Maggie Gordon, who has been visiting Reno friends, returned to her home in Carson to-day.

Opera House on this occasion, and the deep interest manifested by the audience, and the wrapt attention paid to the entire programme, indicated the genuine sincerity of our people in the cause of education. Promptly at 8 o'clock P. M. the curtain raised and disclosed a mountain woodland scene, elegantly set and lighted, with two pianos and an organ arranged for the use of the scholars participating

An encore was not permissible, however, for the programme was long and this was immediately followed by an exercise with dumb bells by sixteen young ladies, whose drill was perfect in its military precision. Then came twelve young misses formed in two opposite rows, play-ing "toss and catch" with bean bags, that was very amusing. Following this came sixteen young ladies in Battalion Drill, led and

Their marching and evolutions were made with the exactness of military veterans, and when they formed in the Maltese cross and revolving star, the applause was enthusiastic. This part of the programme terminated with Free Gymnastics, in which thirty-five young misses and ladies went through a variety of exercises, and closed with an interlacing march with arms akimbo, and a heel and toe quickstep and song to the music of "Dixie," which fairly brought down the house. The rosy checks of the young ladies indicated the healthfulness of this part of their education, and is to be commended. Then followed

THE FAIR GRADUATE.

The interesting event of the even-ing was awaited in breathless ex-pectation, and as Bishop Leonard led upon the stage Miss Hattie May Higgins, there came a murmur of admiration from all parts of the house, for the accomplished young lady who has the honor of being the only graduate from the Bishop's school this year. Her essay "With a Grain of Salt," was read in a clear, sweet tone, with perfect selfpossession, and was well received. At its close the fair graduate was made the recipient of several hand-some bouquets and numerous floral offerings, prominent among them being a harp of roses, twined with smilax, a horse shoe, and a pillow of carnations. The entire school then followed with the chorus, "'Tis Thus Ordained," by Mendels-

Bishop Leonard then made a few appropriate remarks, dispensing with his intended address because of the lateness of the hour, and call-ing the successful scholars upon the stage, made the

#### A Slight Blaze.

The alarm of fire last evening at about 10 o'clock, was occasioned by a blaze, which originated in a manner thought to be incendiary, in a small shed in the rear of Mrs. Goodman's residence, on Virginia street, south of Second. The fire department responded promptly, but its services were not needed, C. W. Jones having discovered the fire and extinguished it before its arrival.

The following-named young lady pupils of the School for Girls, departed for their respective homes on the trains this morning: Miss Esther Evans, Miss Rule, Miss Emma Blauvelt with Mrs. I. L. Requa to Virginia City, Miss Lida Russell to Elko, Miss Eiseman to Pioche, the three Misses Hammonds to Butte City, Montans, and Miss Steiner to Austin.

Both Mrs. Morgan and Aunt Priscilla wanted to put it off; whereupon Ted, wanted to put it off; whereupon Ted, who had been listening very attentively, called out: "Oh, I say Mr. Kenneth, come along; I want to fire some fire-crackers, if they do 't," pointing to his mother and aunt. "Well, I will see about it Ted; it depends upon what the ladies say."

Of course Lillian and Hazel wanted to go, so they carried the day.

The wagon was at the door promptly at eight o'clock, and not many minutes after our party were on their way.

When near Carson, they were all astonished by a loud report in the wagon, so near Priscilla, that she jumped from her seat with: "What mischief is that boy up to now? I do declare he will drive me wild if he goes on this way all day."

Stopping the horses, Frank went to investigate, and found Ted in the bottom of the wagon, just in the act of lighting a whole bunch of fire-crackers

Ted, with a grin, promised amendment, and they were soon on their way again, arriving in Carson in time to rest a little while before the procession formed.

In the meantime, Aunt Priscilla retired to her room to rest, Lillian and Hazel to the parlor, and Kenneth and Frank to ascertain when the procession was to pass. But Ted, possessed with the spirit of mischief, wandered all over the hotel, looking for "other fields and pastures pew." In one of the rooms, lo! a monkey was found—just the thing, thought Ted, but the small animal wisely refused to allow him to touch him, and retreated to the window and then onto the roof.

After him went Ted, up one side and down the other, until making a misstep, he rolled over and over down a low shed, and fell into a deep ditch.

He succeeded in getting to his room without anyone seeing him, and there he was forced to remain in temporary exile, until relief came to him in the guise of a fond parent, bearing dry ap-parel.
